

C O P Y.

From the Regius Professor of Medicine, Oxford.

7th July, 1913.

Dear Stokes,

That seems a very satisfactory arrangement that you have made with the New Haven Hospital, and it will be a useful model to be followed by other places; only I hope you will get them to agree to an arrangement of the hospital in units, or departments, which will be organized on University lines. In any case, hearty congratulations.

It is very nice to hear that the girl is so well - from all points of view a most gratifying result.

Sincerely yours,

(Signed)

Wm. Osler

P. S. Nettleton & Reed are here & very happy.
