

(Aug. 13 - Sep. 25) Culag Hotel,  
Lochinver, N.B.  
Aug. 30th (1913)

Dear Jacobs;

The Congress was a great success. We had a strenuous week at my section. I started off with a dinner of 197 at the R.A.C. - all of the Officers, V.P.'s, Council & Readers at the Med. Sec. We got through all our papers each day, and were not overcrowded or hurried. Barker read a splendid paper in the Arthritis discussion. Cushing made a great hit with his address - delivered it in fine form and his referat in the surgical section on brain tumors saved the meeting, I hear, as Horsely and the Queen Square Physicians were at sad loggerheads in the Int. secr. discussion; he also was easily the most interesting. Next to Ehrlich he made the strongest impression, every one talking of him.

The Historical Section under Moore was a great success. Sudhoff was delightful. He came to Browns early every day and was full of fun. Klebs came for the first part of the meeting. Do you know Streeter of Boston? Such a nice fellow and so keen. He read an admirable paper.

This is a fascinating place, an old shooting lodge of the Sutherlands, now an hotel, about 30 people, all fisher. Revere goes off at 3<sup>8</sup> every day and gets back at 7. He has not caught a salmon yet, but had a monster on for 3 hours. He has had splendid luck with trout. It is a wonderful country, not a flat acre in the country. Rocks and heather & braken & locks & sea inlets.

I hope you are having a good summer, and that Mrs. Jacobs keeps well. We go to Glencoe with the Howards for a week and then home.

Yours<sup>e</sup>ver,  
W.O.
