

From W.O. to Dr. Comrie.

36

Sept. 1913.

CUS417/116.26

Dear Comrie,

I think I could take the Sydenham &
the Boerhave. ^{Sheeler} Cushing might be willing to do the
16th Century Anatomists as he knows Vesal so well.

W.G. McCallum of Columbia could do Malpighi,

Power, Harvey, ^{Paget} Pagitt for ^{Paré} Paré, unless you

wish new men for these two — Mediæval medicine

Norman Moore. I don't know whom to suggest
for Greeks & Arabians — Save Brown of Cambridge.

I don't believe we have an Arabian scholar in
the profession — it is time we tried to breed
one.

I am delighted to hear that the Post
Graduate course has been so successful.

D^r. Comrie
