

13 Norham Gardens,
September 25th (1913)

Dear Dr. Jacobs;

We were talking about you this morning just as your letter was handed in. It is very nice to hear that Mrs. Jacobs is really better. What an anxious and trying time you must have had! She will have been reassured by Father Fletcher's visit.

We are having a very busy time. The McCrae's are here, Parker joined us in London, and was to have spent the week end, but he made a mistake about his sailing, and had to go to Dover on Saturday. Grace is very busy getting Otilie's trousseau. The girls sail with the McCrae's on the 4th, and Grace will probably follow in the course of a few weeks.

I enclose you a slip about the book of War Medals which may interest you.

My love to Mrs. Jacobs,

Ever yours,

Wm. Osler.
