

From the Regius Professor of Medicine, Oxford.

Letter (Typewritten)

25, Sept. 1913.

Dear Archie,

So glad to have your letter with good reports of your father. I am sure you will have a delightful and very profitable year at the R. V. H.

We had a great gathering at the Congress and afterwards went to Lochinvar, where Revere had very good fishing and was fortunate enough to kill his first salmon. Give my love to Harry Wright.

Sincerely yours,
Wm. Osler.
