Dear Adami,

I was very disappointed to see the New Year's Honours List without the name of Roddick. I cannot understand; there must be some hitch within the inner circles. Australia gets recognition, and Allen and the other men there have certainly not anything like the position that Roddick has reached. Of course the truth is, the profession is not in very good odour with the Court or the Government. We considered it all settled that Herringham should have a knighthood in recognition of his work as Secretary General to the Congress, but, as you see, it has slipped through.

We have had a very busy Christmas. I hope you are all well. Love to L.M.C. and the children.

Sincerely yours,
Wm. Osler.
