(Dr. George H. Simmons)
CUS417/117.13

From the Regius Professor of Medicine, Oxford.

12, Jan. 1914.

Dear Simmons:

Greetings for the New Year! I hope all goes well with you and that things are going satisfactorily.

A Dr. Gustav Monod, a member of the famous French Huguenot family, has been appointed by the Minister of the Public Instruction of France to report on Post-graduate instruction in medicine in England and the United States. He sails for New York by the Savoie on Feb. 7th and his address will be The American Express Co., New York. I think it would be well for you to make an announcement to this effect in the Journal. I have urged him, while in America, to give a lecture on medical conditions in Paris, which I think could be made helpful.

Sincerely yours,

(Signed) Wm. Osler
