

From the Regius Professor of Medicine,
Oxford.

To Sir John MacAlister.

17, Jan. 1914.

(Typewritten)

Dear MacAlister,

today You may be interested in my collection of early printed medical books at the Bibliographical Society next Monday. Could you let us have for exhibition the Simon Genuensis, 1474, the Petrus Padubantensis, 1477, the Mundinus, 1478 and the Mesue, 1479? Prideaux will be at 20, Hannover Square at 11 o'clock. Could they be sent over with a careful list to be receipted by him?

With kind regards,

Sincerely yours,

Wm. Osler.
(W. H. E.)
