

(typewritten)
(from sec'y's notebook)

(To: Sir Rickman J. Godlee)

Feb. 14, 1914.

Dear Godlee:

Does the R.C.S. ever give honorary degrees apart from ceremonies? I ask because Surgeon General Gorgas will be in London from the 17th to March 24th. I do not suppose anybody has ever proved a more efficient controller of disease & his work in Cuba and Panama has probably been the most important ever done in tropical sanitation.

Wm. Osler.
