

Mar. 21, 1914

From the Regius Professor of Medicine, Oxford. COS417/117.67

31, March, 1914.

Dear G. Cheyne, (Shattuck)

That is a very nice manual - very brief, to the point, and will be, I am sure, helpful. You might extend it a bit in the next edition. I do not see any memorandum on haemoptysis.

Give my love to all at home.

Sincerely yours,

Wm. Osler
