✓  
Hearty congratulations on the Vienna appointment, of which I had not heard. I am sure you will be very happy there. It is a great school, and, considering its direct origin in Holland, your appointment is peculiarly appropriate. It would make a fine subject for your Inaugural Lecture. I have got some historical literature that I think ~~g~~ would interest you. I could send it at any time.-

I got the other day from Holland a very ~~fine~~ interesting manuscript of the notes of Boerhaave's lectures on syphilis.
