I wish you could see the schools!
 Never put to such good use; about
 350 beds in already.

Dear Power

I hope the boy has got back safely. My wife & boy sailed to Quebec
 10 days ago. I was to follow Sept 5. but of course I shall not go. Your
 lecture is delightful. Many thanks. The story of *Alfui?* is

particularly good - & the 'Domini indutempus' !!

Yours
