C.S.

(From secretary's notebook)

(To Prof. Martin,  
Lister Institute, Eng.)

Aug. 10, 1914.

Dear Martin:

Would it not be nice on the part of the Lister Institute to offer to supply to the Territorials the anti-typhoid vaccine? I suppose we could afford to do it. The matter ought to be taken up at once. It would help territorial surgeons to know that an abundant supply was forthcoming.

Wm. Osler.
