THE REGIUS PROFESSOR OF MEDICINE, Oxford

(Dr. W. S. Thayer)
CUS417/118.24
26, August, 1914.

Dear Thayer,

Yours of July 2nd only got up to me here to-day. So glad of the many details. I am very much upset about the celebration. Your programme intensifies my disappointment, but under the circumstances here it would not be decent to leave. Glad to hear what you say about Janeway. I will write him fully.

I hope that you are feeling all right again. Such an aggravation to have these recurrences.

As I think I told you in a previous short note, Grace and Revere returned.

Things look rather black just at present, but, so long as we can hold the seas, Germany can do what she pleases on land- ruin stares her in the face. I am asking them to send you the 'White Paper', in which you will be pleased to read Grey's dispatches.

Love to S. Susan.

Sincerely yours,

Wm Osler
