

(From secretary's notebook)

(To Dr. A. Siebert, N. Y.)

Sept. 25, 1914.

Dear Siebert

Thanks for your pamphlet. If ever
you would read a different story & you should
see the spirit of the country. The Germans
against whom we are waging war are not the
Germans that we used to know, but these
military barbarians of the first water. You should
hear the first-hand stories of some of the
Belgian professors who are now with us. They
would make even your Teutonic blood boil.
