(Dr. W. S. Thayer)

CUS417/118.49

25, September, 1914.

Dear Thayer,

I send you a brief note to read. I was a little doubtful about mentioning the names of the junior assistants, such as Camac, Cole, Carter, Parfitt Billings Gwyn Campbell Howard and others. If you think I should, slip them in at page 4.

Please send me a full account of the proceedings. I will send a cable for the opening meeting.

Sincerely yours,

Wm Osler

P.S. (handwriting) Lavingood was with us first as a House Phy. was he not?  
Also Bruce MacCallum.  
Do put in any one else I have inadvertently omitted.
