Oxford.

7, October, 1914.

Dear Blumer,

You are a trump to have sent that letter and to have got these handsome contributions. Please let me have the names of any Providence subscribers, that I may write and thank them personally. We have seven families already and are gradually getting them settled. Many of them are delightful people, and everyone here has been so kind. It is a very eugenic professoriate. They all have large families.

We are very busy, and the country is in fine form. I have been going about through the camps, and am greatly impressed with the character of the men.

I enclose you a little tract.

With kindest regards,

Sincerely yours,

W<sup>m</sup> Osler
