

Red X

From the Reg. Prof. of Med. Oxford.

To Sir George H. Perley

(Letter Typewritten.)

2, December, 1914.

Dear Perley,

Have you heard anything official of the offer to the War Office of that McGill Hospital Unit? It will be made up of McGill Professors and students, comprising five or six of the best surgeons of Montreal, a good pathologist and bacteriologist, and trained students. I do hope it will be accepted, as it is really a fine offer. Let me know please if it has come officially through you, as I could perhaps then do something at the War Office.

Sincerely yours,

Wm. Osler.
