

From the Regius Professor of Medicine, Oxford.

23, December, 1914.

Dear Garrison,

Many thanks for the copies of "Science", one of which I am sending on to the Gaskells. The Journal contains a much better statement of his work and position than any that has appeared in this country.

They will be delighted to have the War volumes at the Hospital at Paignton.

All goes well. We have got our Belgians very comfortably settled. Unfortunately, Van Gehuchten died in Cambridge the week before last of acute obstruction.

Sincerely yours,

Wm. Osler.

New Years Greetings."
