You must publish that address on O. Why not in the Archives of Med?  
I have sent on your suggestion to Davis of the English school here - excellent idea.  
I have forgotten that I ever gave an address in M. - so glad all the same that it  
has borne fruit. Shall be delighted with Frank's history I am sure - in spite  
of the whiskey charge which may be true, as I am sure I had one drink of Scotch  
in B. Love to Frances & all. I wish we could have you here for a few weeks.  
All goes well in the country. The bombs are mere flea bites.

W.O.
