

CUS 417/119.4

(Dr. Harry Friedenwald)
(typewritten)

From the Regius Professor of Medicine, 4, January, 1915.
Oxford.

Dear Harry F.,

I am glad you liked my brief paper before the Jewish Historical Society.
It was a very interesting meeting. There was a good joke upon me - one of
the papers in commenting on a quotation I made said it sounded like Hebrew,
but it was meant for German.

You will be interested to hear that we have got a young fellow working
in the Bodleian at an unpublished manuscript of Maimonides.

We are all hard at work here, and very hopeful. It is a sad business,
particularly for those of us with many warm friends in Germany.

Love to Julius, and warmest greetings to you all at home.

Sincerely yours,

Israel in Med. (?)

W^m Osler
