Dear White,

I have sent on your remarks to the 'Spectator', as I think that would be a more satisfactory place, if they publish it. The 'London Nation' is not a very powerful sheet. The 'Spectator' is by far the most influential.

My friend Gower, who is second in command of the Publicity Committee and a son of Dr. Gower, is delighted with your pamphlet. It will be very interesting to see it in the different languages.

Sincerely yours,

W^m Osler
