

Dear Old Man,

(To Dr. Mott)

Jan. 30, 1915

Yes! Of course Woodhead should be made an honorary fellow. He has never got proper recognition & he has done such good work in so many directions. I am not on the Council but I see Rolleston, & Morley Fletcher have just been put on. They would be warmly in favour.

About the other matter - It is awfully good of you to suggest it but I do not think it would be satisfactory. I have had enough of these things & am not specially ambitious in this direction. Then I think the President of the College should be a man resident in London. To tell you the truth I think the business would bore me to death. All the same it is awfully good of some of the fellows to think of me.

With love to the family. I hope Mrs Mott is keeping well.

D. E. Mott.
