From the Regius Professor. of Med.
Oxford.

To Sir John MacAlister.

Letter (Typewritten)

24, February, 1915.

Dear MacAlister,

Sorry I cannot be at the Library meeting on Tuesday next, but I never can be away on Tuesday.

I may mention with reference to the German periodicals that certain booksellers are allowed by the Government to import scientific works, and I suppose periodicals, from Germany through Holland. I know Parker & Sons here are supplying German periodicals, and German books.

Sincerely yours,

Wm. Osler.
