(Miss Marcia Noyes)

CUS417/119.60

From the Regius Professor of Medicine, Oxford
1, March, 1915

Dear Miss Noyes,

That was a very interesting meeting devoted to the library. I hope they all feel as grateful to you as I do for the good work you have done. Think what it would have been if we had had a succession of failures instead of one uniform success!

What a splendid health program! It must have stimulated interest enormously.

Revere got his commission last Wednesday, and went off to join one of the Canadian hospital units waiting the arrival of the McGill unit, with which he will go off to France.

Greetings to all your staff and to Dr. Rurah.

Sincerely yours,
W^m Osler
