Dear Birkett,

Glad to hear that all goes so well. It will be an awful job for you to double your unit. Three hundred and eight in all will mean a small contingent in itself.

Revere got his commission, and has been for two weeks at Clevedon Hospital, where he is very happy. The Quartermaster is taking great interest in him. I do not think it would be possible for him to learn the business sufficiently to take the second quartermastership. After all, you must have your quartermasters men of experience. So much depends on them. I hope he will make a good assistant. Keogh is very interested in the unit, and I think will do everything in his power to place you well.

Greetings to Mrs. Birkett.

Sincerely yours,

W^m Osler.
