

From the Regius Professor of Medicine, Oxford.

22, March, 1915.

Dear Garrison,

I am so glad you are getting on rapidly with Billings' book, as its appearance will be timely, everybody's attention given to the details of war.

We shall be so glad to see Cushing, and I will try to get him to give a lecture, as you suggest. At Heger's request we have postponed our Vesalian Celebration until happier times.

I am still struggling with my list of early printed books, and now that poor Kraus is not available there are several items I will have to abandon. Have you got a list of your incunabula? Do you happen to have an Aderlasskalender, as I should like to mention it, and if it is before 1480 to put it on my list? They occur so rarely that I doubt if Billings could have picked one up, but one never knows, and the Surgeon General's Library is full of surprises.

I am writing to the Surgeon General today begging for a copy of the Army Medical and Surgical Reports for our Army Committee, which is preparing for the history of the war.

I knew Klebs was a pro-German, but it is not to be surprised at. He was brought up there.

Greetings to Streeter, who is a jewel.

Sincerely yours,

Wm. Osler.
