

From the Regius Professor of Medicine, Oxford.

21, May, 1915.

Dear Joe Pratt,

So glad to hear from you the other day, and hope all goes well with the family. The children must be a great delight!

We have had a busy winter, and full of interest in so many new and unusual conditions. It is going to be a long business, but we hope for the best. Revere has joined the Canadian Contingent, and has been at work for three months at Clevedon. He is now joining the McGill unit as Birkett's orderly officer.

Do you know of any good local p.m.'s on erythraemia with bone marrow studies? I should like very much a couple of sections.

Thanks for the note about 'Typhoid Mary'. What an extraordinary case!

Love to you all.

Sincerely yours,

W^m Osler.
