FROM THE REGIUS PROFESSOR OF MEDICINE

25 May 1915.

OXFORD

Sina

Dear Flexner:

The apparatus arrived about a week ago,
and I am sending it on to Watson Cheyne. Thank Meltzer
for his kindness.

The meningitis is subsiding. I hear better
reports from the serum that was sent over. I saw two
very satisfactory cases last week at the Hasler Hospital,
in which the temperature had fallen promptly. Robb is get-
ting very good results.

Sincerely yours,

(Signed) Wm. Osler
