Dear Mabel

We are delighted with the photographs. What a big girl Sylvia has grown! Such a sweet picture & as for the baby - well, you must be very proud. She "favors her pa", as the country people say. How I wish I could have a quiet time with you all at Mt Kisco. One gets 'fed up' with this tragedy but there are compensations. The pluck of the women is wonderful - & the burden of the loss comes on them. You must be very worried about the American note which we had hoped to see in this mornings papers. I hope a peaceful way may be found as the U. S. can do so much as a neutral. Revere spent Tuesday with us & is now at Southampton getting out supplies &c. They expect to cross this week. He has got very interested in the work. Such a satisfactory laddie you would love him.

Love to you all

Affectionately yours

WM OSLER
