Letter (Typewritten)

Dear Archie,

I enclose the translations. They are full of interest about Finch a great deal of material that has, of course, never seen the light. I will get Boveri of Milan to find out for us about those stemmata etc. in the hall, as we should have reproductions of them. I will let you know what I hear from the Record Office. Meanwhile, dig away in the Muniment room, as you are sure to come upon something.

Sincerely yours,

W.O.
