CUS417/120.81

The above letters are pasted into my own copy of the book.

In November 1915 I asked Sir W. about my writing a small monograph which would practically be a second edition of my "critical review" on polycythaemia or erythraemia which appeared in the Quarterly Journal of Medicine (1908, Vol. ii) Pp. 55-)

about 19. Nov. 1915 he wrote me from Norham Gardens:

Dear Weber

No difficulty whatever — use it to the full. I do not believe we have any copyright in authors articles. But please hurry, as I am trying to do the same thing, and have been collecting material for some time. I have got two beautiful pictures of recent cases. I will race you — and bet a fiver that you will be out first! Love to the young man. Sincerely yours Wm Osler

I am hoping soon to bring my monograph out. — I wonder whether Sir W. ever arranged his notes for publication?

I have never preserved all postcards, &c. from Sir W., but I think these will be of some interest — especially the last.

Yours sincerely F. Parkes Weber.
