Dr. C. P. Howard

Dec. 17th, 1915.

Dear Campbell:-

Letter this eve. from Peterson. "I wrote at once to the Minister about Campbell Howard and have his reply stating that he had forwarded a copy of my letter to General Carson. I have written to General Carson begging that he will give it personal attention and expressing the hope that he has *power* to deal with it. I suggest that you find out from Carson what he is doing in regard to the matter, and if there is any delay send me a cable when I shall take it up again directly with the Minister at Ottawa."

Let me know at once what you have done. It might be indiscreet to see Carson before saying anything to Jones or Birkett. Have you spoken with B? I could see Carson who is always very friendly.

All well, the children splending, liking the new nurse.

I hope you are getting settled. I had hoped you might get over and have a few weeks active work at some 'Spital.

Yours ever,

Wm. Osler.
