Dear Hurd,

I hope all goes well with you and the girls. Best wishes for 1916. I was delighted to see in the last no. of the Bulletin of Kelly's fine gift to the Library. It is a great collection. I wish we could see a proper building such as is spoken of in the article. I had^a scare the other night- fire in the dining room- no books burnt but the room was destroyed. My library grows rapidly, and I am getting it properly classified. The \$6000 my bro. E.B. gave has enabled me to get a good many Mss. and incunabula. I am working at a catalogue on somewhat unique lines. Unfortunately my sec. has been called up but I have a man from Bodly every eve. Revere is still with the McGill unit but is waiting orders to join a field ambulance. He has been at Camiers since June. He got back lately for 5 days looking so well. The McGill unit has had a hard time in the mud and wet, their tents blew to ribbons.

Love to you all.

Sincerely yours,

(signed) Wm. Osler.
