

Autobiog. notes. 1916.1916.

Wed. Feb. 9-12. Shorncliffe.
 Th. 24. Const. Cheltenham *

Cheltenham
 * Got stuck in snowstorm returning from C. Could not get up the hill and had to stay night there. Could not motor back the next day - too much snow. Very cold and got chilled. Had bad cold Friday. Began in larynx then went to head, felt badly, much stuffed up, little or no fever,

Wk of Sun. Feb. 27 - Mar. 4. In bed till Sat. with cold, no cough just nose and larynx.

(Very few entries. H.C.)

Sun. May 28-9. Shorncliffe. (~~Shorncliffe?~~)

Wk of Sun. June 18 - Sat. 24. Cardiff and Swansea with the Roy. Com. on Welsh Universities.

Wk of Monday, June 26 - 30. Welsh Commission Bangor and Aberystwyth.

Sun. July 9 - 10. Durham, Newcastle -on-Tyne.

Sun. " 30. Milton-on-Hill.

Mon. 31. London.

Tu. Aug. 1 - 3. Shorncliffe.

Fr. 4. Midhurst. = *King Edward's Tuberculosis sanatorium (one a year ±)*

Sat. 5. London.

Wk of Sun. Aug. 13-9. Hamble, Emmons.

Sun. Aug. 20-3. Netley. *was staying at the Hurst who were there - 3000 bed place.*

Wed. 30. Salcombe, Devon.

Sat. Sep. 2. Malvern.

Fr. 8. Br. Assoc. Newcastle.

Sun. 10. Bamborough with Revere.

Tu. 19-23. Cardiff and Paignton.

Wed. Oct. 4-7. Laid up with cold and slight fever 3 days.

Sat. Dec. 2 - 9. I did not feel very well on Sat. p.m. the 2nd. I felt on Sunday that I had taken cold and remained in bed. I had no fever but slight laryngitis, no cough, no coryza. To head it off I stayed in bed 5th to 7th. I got up Friday p.m. and felt much better.

Sat. Colonel Hogarth came to lunch, and I saw a gentleman from Rugby.

Wk of Sun. Dec. 10-16. Got up Tues. the 10th and was about the house. In the eve felt pretty seedy and vomited. Fever in the night and cough began. No t.

Mon. 11th. Fever in the night and a great deal of cough. Almost incessant.

12. Definitely rusty sputum, no pain. Cough at intervals very hacking. Gibson found slight signs at left base and rub and a slight impediment of resonance. Cough very bad, sput. very tenacious. T. normal all day, fever at night.

13. T. normal, pulse 64, cough still bad, sput. not rusty, microscopically abundant pneumococci.

14. No fever, cough bad, heroin controlled it a little bit in getting to sleep.

Autobiog. notes 1916.

15. Better, cough less .

16. Much better.

11, 12 and 13. Sweated at night, very curious attack resembling the one I had in Baltimore in 1901 and 1902, evidently slight pneumonia.

Wk of Sun. Dec. 17-23. In bed all week. Cough better, Rather weak and knocked out.

~~Wk~~ Sun. Dec. 24-31. Up on the 24th, down to dinner on Christmas day, remained very husky all week.
