Dear Holden

The Lancet, 423 Strand, W.C. London, wh. keeps a very select Library wants vol 1. 2. & 3 of the Charaks - is it possible to send them to Dr Sprigge at above address? S. is a man of Charakian type - quote one of us!

I wish I could take Kiplings Night Mail & attend the club meetings. I hope you had a little Xmas reminder from me - but book-parcels are often held up in these censorious days.

All goes well here & we are ready for another 2 years of it. No Peace talk in England - we are out on the long Trail!

Yours sincerely

Wm Osler
