*Woodrow Wilson*

Dear Mr. President:

The medical services of the U.S. Army and Navy should not miss the opportunity the war offers of studying certain problems of organization. An American lady has offered to pay the expenses, <sup>(of)</sup> ~~if~~ two or three men from each service, and Sir Alfred Keogh, the Director General, assures me that every facility would be given. Permission would have to be asked, of course, by the government. Personally I feel the matter to be of sufficient importance to bring to your notice. If you agree, please talk the matter over with Wood and Gorgas.

With greetings & regards,

Sincerely yours,

(Signed) Wm. Osler
