

CUS417/121, III

(typewritten)

(To Sir John Lynn Thomas, Cardiff)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

May 3, 1916.

Dear Thomas:

We must get the profession of the principality at the back of the school. Perhaps it may be best done through the Public Health Institute. I have sent to Ontario for the scheme which is working very well there. There is no reason why a distinguished practitioner should not be one of each of the medical election committees. They could represent the profession at large, not necessarily medical associations. When do the branches of the B.M.A. meet? We might have a medical education symposium.

Sincerely yours,

W^m Osler.
