

CUS417/122.67

(Handwriting)

(To Mrs. Charles Gwyn)

13, Norham Gardens, Oxford.
6th (Dec., 1916)

Dearest C

Many happy returns of the day! We sent you a cable.

Norman is better & will be sent south - I hope to Cannes - to convalesce The fever appears to have been the obscure type known as Trench fever. He will come here later. I hope they will give him his Majority as he has earned the promotion by good hard work

Capt Campbell Gwyn - with work of Major - leaves for France tomorrow He looks so well - ankle quite strong. Revere writes such breezy letters. He is on the Ancre, north of Albert evidently with very nice men. We are ? to have the Wrights for Xmas & I hope Frank & Belle for Xmas day. They are in London

Love to you all

Yours affec

W
