7.XI.'17

Dr. John A. Foote,
1726 "M" Street, N. W.,
Washington, D. C., U. S. A.

Many thanks for those interesting papers - Lancisi particularly,

for I think I told you I collected his work and have one of his manuscript
consultation books and his report mss of the illness of one of the Popes.
Again I am much obliged.

Wm. Osler.
