

(typewriting)
FROM THE REGIUS PROFESSOR OF MEDICINE, Oxford.

CUSA17/123.83
(Dr. W. S. Thayer)

4 May 1917.

Dear Thayer,

I was delighted with the poems, particularly with the ending and the little volume will go on the shelves of my Bib. literaria. My niece, Mrs. Osborne has written such a nice review of the volume of poems you sent by that young American. I will send you a copy of the Journal.

I fear you must be very much worried over sister Susie's condition, poor dear, it is very hard on you both.

We can imagine your joy at the declaration of War. Wilson has managed pretty well, as it would have been a very risky business, without the country strongly behind him.

We are hoping to have Revere home for a week's leave. They have had a hard month beyond Arras, fighting night and day and on the move incessantly.

Love to you both, from us both

Ever yours,

W.O.
