Dear Mac

I wrote you yesterday a letter of congratulations and this a.m. comes yours of the 30th. Very glad you have taken out your papers - quite right - I never had any feeling about it. I felt sure you would have the offer. W and I talked over the whole business last summer. Your claims were outstanding - the only doubt we had was whether you had not dug in too deeply in N.Y. You will fill the bill all right. What a remarkable O. and Chlorides association. ~~Barcroft~~ and Haldane will be interested.

Revere as I told you is here - so robust and matured. He has taken to books and has already picked up a surprising knowledge in certain directions. He is beside me now with his latest treasure-bought at auction yesterday - Philemon Hollands 1603 - Plutarchs Morals - a great book.

Yours ever,

Wm. Osler

L. O. sends love and  
congratulations.
