To sir John MacAlister.

13, Norham Gardens,
Oxford.

13th.

Letter Script.

Dear MacAlister,

For 25 or 30 years there was a Medical Botanical Society in London,
(of which I just ~~knew~~ ^{learned}). I saw advertized in a catalogue their minute
books, and it seemed a shame to have this record of human effort adrift,
so I sent for the volumes. Not of much value but someone will wish
to know about the Society. Will you give shelf room to the Vols.

Hope to see you Wednesday.

Sincerely yours,

Wm. Osler.
