From Dr. Malloch's Journal
Friday, August 31, 1917.

Bill got wire from Oxford that Revere is seriously wounded and probably at 46 C.C.S. Harvey Cushing with him, and could Bill go up? Another wire "Too late, he died on the 30th. Osler." I wrote to the Oslers. Bill goes over to-morrow.

Col. Russell arranged ~~for~~ to send me over to Oxford at once "on duty" - taking her museum pathological specimens!
