13, Norham Gardens,  
Oxford,

Oct. 7, 1917.

Dear Simmons:

Please note in Journal if you think it worth while that my son, Edward Revere, who was wounded in chest and abdomen by a shell, Aug. 29th, was taken to the Casualty Clearing Station at which my good friends, George Brewer of New York and George Crile were stationed. Darrach of New York operated and Crile transfused. His life-long friend Harvey Cushing was also with him. Everything possible was done, but he died about 24 hours later. Many of my friends would be glad to know of this most fortunate coincidence.

Sincerely yours,

(Signed) Wm. Osler
