Dear Klebs

Thanks for your kind letter of sympathy.

We are hard hit, but are keeping - or trying to do so -
 brave faces to the world. It is such a consolation
 that the dear Laddie fell into the hands of such good
 friends as Crile and ~~Bauman~~ and that Harvey Cushing was
 with him at the end.

I am very busy - Oxford full of patients and
 cadets. We have just had 250 Am. Flying men here - nearly
 all college boys and we have been doing what we could to
 make them comfortable. 12 orthopedic men are here with
 Erving of Washington. Our Historical section keeps up -
 we had an interesting Boerhaave evening. Singer is in
 Salonika - his first series of 'illustrés' comes out soon.
 He is A.I. - lots of drive, and Mrs Singer is quite as
 good. She is doing the English med. Mss. systematically.

I will send you shortly my list of Incunabula
 (med) to 1400. Look over with a critical eye - there will
 be mistakes of course. My library grows and I am getting it
 arranged and preparing a catalogue raisonné - but there is
 very little time. Love to Mrs McCagg when you see her. /

Sincerely yours

Full at home. P.S. Your Bibliogr. paper was most helpful - A.I.!
