Letter from Dr. Adami to W.O.

Pembroke House,
133, Oxford Street, W.1.

December, 31st. 1917.

Typewritten.

Dear Sir William,

I do not think that the case for a special Public Health Institute* could be put better than you have in this draft, and as you ask I return it to you immediately.

The other letter that you ask for I must take a little time over, and will let you have it within a day.

Yours ever,

Lt.Col., A.D.M.S.

Sir William Osler, Bart,
13, Borham Gardens,
Oxford.
