To Dr. George Sarton, Carnegie Inst.)

13, Norham Gardens, Oxford,  
15. 1. 18.

Dear Dr Sarton

I hope the idea of your Institute may prosper and take shape. I am afraid the times are not very favourable to new projects; but the atmosphere of Harvard should encourage it. Our little effort here, fostered by those good Singers, should be helpful. It is but a beginning. I hope it may grow. Singer's absence makes things difficult. Let me know at any time if we can be of service.

Sincerely yours

W<sup>m</sup> Osler

Thanks for your Kind sympathies.
