Dear ~~Miss~~ Jewett:

Only this week I have read the "Country Doctor" which you so kindly sent and am perfectly charmed with the very true and sympathetic account of a man of the highest type in the profession.

As I told you I am collecting for my library the books etc. giving an account of the social and literary side of professional life. I hope to publish a catalogue of my collection.

Under the "Country Doctor" could I state that this was a picture drawn from your Father's life and work? If so will you please send me the date of his birth, his graduation, where he practised and date of death.

Sincerely yours,

Wm. Osler
