

13 Norham Gardens, Oxford.

April 2nd., 1918.

Dr. C. P. Howard.

Dear Campbell:

'Twas a sad business about poor Jack McCrae - pneumonia and meningitis. He had had sharp attacks of asthma, and had not had a good winter but he had stuck at the job and had just been appointed consultant to the 1st. Army. Burkett has gone back - wonderfully well - no *rocks* on bladder or pelvis.

We keep much the same here, full all the time, and so many going and coming that we have not (fortunately) much time to think. Clevedon continues full of interest. The Heart Hospital has been moved to Colchester so I cannot go so often.

Mrs. Wright and the girls are so well. Phoebe home on leave. How I wish you were all over here again. We miss the darlings so much. How splendidly they are growing. Love to them both. Arthur Howard - better. Love to O. and your dear self.

Yours,

Docie O.
